Professional Summary

Driven Full-Stack Developer with proven internship experience architecting and deploying production-grade web applications using React, Node.js, Flask, and REST APIs. Demonstrated expertise in engineering secure authentication systems, real-time dashboards, and scalable database-driven workflows. Adept at transforming complex requirements into maintainable, high-performance code. Targeting a junior developer role to deliver measurable impact within high-performing software teams.

Technical Skills

Languages: C++, Java, JavaScript
Frontend: HTML, CSS, React.js
Backend: Node.js, Spring Boot, Django, Flask
Mobile: Flutter, React Native
Databases: MySQL, MongoDB, SQLite
Tools: Git, GitHub, Postman, Jira, Figma, Kafka, H2

Professional Experience

- Web Development Intern — Prodigy Infotech** [Certificate](#) Jun – Jul 2025
- Engineered 5+ interactive frontend components and responsive UI layouts using React.js, accelerating page load performance by optimising component rendering cycles.
 - Revamped website architecture and UX flows, driving a measurable uplift in user engagement metrics.
 - Collaborated cross-functionally to deliver all project milestones on schedule within an agile environment.
- Web Development Intern — Codsoft** [Certificate](#) Jul – Aug 2025
- Developed 3+ responsive web interfaces using HTML, CSS, and JavaScript, ensuring seamless cross-browser compatibility.
 - Architected and maintained version-controlled React component library via GitHub, streamlining collaboration across a 2-person team.

Projects

- Laboratory Management System** | React, Node.js, MySQL [Github link](#)
- Architected a full-stack platform with role-based access control (3 user roles) and JWT cookie authentication, eliminating unauthorised access incidents entirely.
 - Delivered interactive dashboards and end-to-end equipment management workflows, reducing manual tracking effort by approximately 40%.
- Smart Library Automation System** | IoT, RFID, BLE, AI Vision, MySQL [In Progress] [Github link](#)
- Spearheading development of an IoT-integrated platform combining RFID, BLE Beacons, geofencing, and AI Vision for automated entry validation and real-time book location tracking.
 - Designing a responsive, MySQL-backed interface capable of managing an inventory of 1,000+ books with real-time data synchronisation.

Education

B.E. Computer Science & Engineering National Engineering College, Kovilpatti CGPA: 6.8 / 10.0	2024 – 2027
Diploma In Mechanical Lakshmi Ammal Polytechnic College, Kovilpatti Aggregate: 81%	2022 – 2024
Higher Secondary — Maths & Computer Science R.C. Susai Hr. Sec. School, Kalugumalai	2021 – 2022

Certifications

- MongoDB Basics Certification — MongoDB University (2025)
- Cisco Networking Certification — Cisco Networking Academy (2024)
- Database Management System Certification — Infosys Springboard
- Full Stack Development Bootcamp — GeeksforGeeks

Achievements & Activities

- Solved 1,000+ programming problems on SkillRack, completing 250+ daily challenges and standardised assessment tests.
- Demonstrated leadership by coordinating and executing team-based technical projects within institutional environments.
- Facilitated peer mentoring and knowledge-sharing sessions, strengthening technical competencies across junior cohorts.
- Pursued continuous professional development through competitive coding platforms and industry-recognised bootcamps.
